

CLAPS & WHISTLES

We keep it SIMPLE

We don't know the rules of grammar. . . .

If you're trying to persuade people to do something, or buy something, it seems to me you should use their language, the language they use every day, the language in which they think.

"Simplifying of assets comes naturally to Jay - so much so, he has almost rendered some of our expansion plans redundant. One of the very few hands on managers I have come across - while at the same time giving space to team members to optimize results. To top it all, here is a man who backs his team to the hilt, once the basic confidence is built."

"I have had a great learning experience working closely with you over the last 3 years in the business as well as the listed entity. You're an excellent example of great team play, intellect, hard work & professionalism. I wish you all the best in your new venture. I will be staying in touch with you going forward as well."

"Really appreciate Jay's leadership and ability to articulate. Always learning to me in person, I believe we got together as a robust and delivering team under your leadership. Thanks for the opportunity to work with you as a part of the leadership team and just to share, I had huge opportunities which I will cherish. My best wishes to Jay for his success in the future."

"My association with Jay has been relatively for a small period. But I must confess that I have not seen a more disciplined and committed individual in my 24+ years of professional experience. He brings that discipline both in his professional and personal life and that is what which makes him unique. He is absolutely transparent, focused on deliverables and respects TIME. As a personality I have learned quite a lot from you watching you and working with you, I am quite sure Akzo will be poorer without your leadership, but, hopefully will continue the legacy that you are leaving behind in terms of work and performance ethics. Wish you all the best in your new innings."
